## **Multi-Level Marketing is the fastest way to achieve Total Time Freedom and Financial Independence!**

**"You have within your hands, the vehicle that has the power  
to set you totally, financially free -  
all you have to do...is drive the vehicle!"**

The vehicle is our Wealth Building System. You're behind the wheel, all you have to do is put it in forward and follow the easy road map we've given you.

1. Invest in your own business by buying and using Neways safe non-toxic products. Get on \$100 or \$150DS to get your paychecks on a monthly basis and encourage your people to do the same. Buy from your own store not the one across the street.
2. Build your business by purchasing shares as often as you can and do your follow up.
3. Set your goals and build your belief. Write down your three main goals then don't let anyone talk you out of them. Believe me they will try. Educate yourself about the company the products and develop your belief in yourself and the Neway's mission. See the information list. \*

The question is how bad do you want to succeed? What are you willing to do for it? How did Kurt and I attain a \$10,000 monthly check in less than two years? We gave up everything that was unnecessary in our lives. The time we would have spent watching TV or going to the movies we worked the business. The money we would have spent on unnecessary items was invested into the business. We wanted freedom from our just over broke jobs and our bosses and we wanted it bad. Is your desire strong enough? You can't just stick your toe in the water, you have to jump in and swim. If at all possible get on at least \$100DS right away so you can double your

income. Then join the Exclusive Gold Club when you get on \$150DS. These are the committed elite and we recognize them. Here is an excerpt from something I read recently. I think it really sends the message.

## **They Risked Their Lives, ...For A Chance At Freedom**

How many people have you ever heard of smuggling themselves OUT of the United States? I'll tell you - NONE! But every day, people are risking their lives trying to smuggle themselves *into* America. Why? OPPORTUNITY!

You've seen it on the news - foreigners who cram and pack themselves full, shoulder-to-shoulder - can barely breathe -inside U-Haul trailers, tuna boats, used oil barrels, car trunks, unsanitary cargo spaces, airplane landing gear compartments, the hulls of ships, whatever - then make a 2, 3, or 5-day trip that many of them die by suffocating or drowning - just to have a *chance* at opportunity in America.

Think about that for a moment - a *chance* to break out of poverty; a *chance* to make life better for their family; a *chance* to give their children a future; a *chance* just to live instead of exist; a *chance* just to have a *life!*

Yet everyday, so many people whine because they've got it so bad! They complain because they're only making \$14 an hour instead of \$16; because they only have a 42" TV and not a 51"; because they only have 2 cars in the driveway instead of 3; because they only have a 2,000 sqft home and not a 2,500 - do you recognize it? FACT: America's *poor*, have it better than most of the wealthy in other countries!

But like air, opportunity surrounds us, so we have a tendency to overlook it. It's been said, "If you want to know about water, don't ask a fish" - "If you want to know about opportunity, don't ask an American."

What YOU have access to, there are people outside the gate who are willing to risk their life to have it. Do you seriously want to earn \$5,000 a month? For those of you who aren't driven from within - I challenge you to live outside your *own gate* for 60 days. I promise you, you'll take less for granted and have an energy charge that will take you - non-stop - to \$5,000! To those of you who *are* driven - you already have the \$5,000 check, it's just not signed yet, if you know what I mean. In other words, just keep doing what you're doing because your day is coming.

---

Every time Kurt and I travel out of the United States. We are always thankful to return. We have learned to appreciate the incredible good here: the people, the land and the opportunities. We feel truly blessed .

### **Product Testimonials**

All my life my hair has grown very fast, was curly and fell out quite regularly. I would have to clean out my brush every week or so and it was completely full of hair. That was normal for me and I wasn't loosing hair mass as it

grew back very fast. When my hair started to turn gray it straightened out some and didn't grow back as fast. However, my hair was still falling out at the same speed. When I started to use the Neways shampoo and conditioner, not the 2nd chance, my hair stopped falling out in large amounts. Now only about 5 strands of hair would fall out and I only have to clean out my brush about twice a year. If I had not joined Neways and started to use their shampoo, the top of my head would be bald by now.

I have had a bad back for the last 25 years or so. Sometimes I had a very hard time getting out of bed and could hardly function during the day. My pain was normally between 1 1/2 and 2 on a scale of 1 to 10, going up to a 7 or 8 once or twice a year. My right hip joint and behind my right knee would ache real bad when I would drive for over 2 hours. I would usually have to walk around for a bit to ease the pain. When I was in Salt Lake I was talking to Margie about those pains and she suggested that I try CetylMobility. When the order came in Kendra & I were getting ready to leave on a vacation in about a week. I started taking the product before we left but didn't pay much attention to the loss of pain until I realized I had been driving for about 5 hours, with no pain what-so-ever. When I stay on the product, my pains completely disappear. However, I forget sometimes and the pains return. I start taking the product again and the pains completely disappear. When we returned from our vacation I drove for 10 hours straight and virtually had no pain. With the exception of my seat that is.

These are two great products and I am always recommending them to friends. Ken Keiscome

Roil Experience.

About 2 years ago I made a trip in my 1992 Ford Ranger pickup, which had about 100,000 miles on it at the time. While on the trip I overloaded a bearing in the manual transmission. This resulted in a loud bearing knock and metal filings in the oil. Well I changed the oil and added Roil to the refill, and drove it around town for 1,000 miles. The noise didn't get worse so I drove it 1200 miles round trip to a Neways special program in Salt Lake City. When I returned the noise was less than when I started. After about 5000 miles I tested the oil and found very low metal residue. I changed the oil and added new Roil. I now have 125,000 miles on the truck and the noise is no worse than it was after the trip to S.L.C. I use Roil in the engines and gear-boxes of all my vehicles and have not had a failure in any of them. Lynn Smith

I like to add the essential oils to my Neways products to give them a safe fragrance. I especially like Lavender, Ylang Ylang and Rosewood. These oils are beneficial to the skin and hair. Teenage girls like the fruity oils like Tangerine and Grapefruit added to their shampoos and lotions. I love the new perfume Nerola it is a very exotic fragrance.

Let's not forget the men. The Lime, Sandalwood and the Wealthy blend oils are very masculine. I find Kurt irresistible when he wears Wealthy as after-shave cologne.

If you haven't tried the new products Green Qi and Mass Advantage you're missing out.

The Green Qi is an easy way to get your fruit and vegetable servings in a mild flavored drink. I also mix it in soups, sauces and fruit juices to add extra nutritional value to foods. Kids will eat their vegetables without even knowing. The New Mass Advantage is a great energizer and tastes like a rich milk shake. It is a delicious protein supplement.

We will have more testimonials in future newsletters. If you would like to contribute send an e-mail to [gailmeyer@ameritech.net](mailto:gailmeyer@ameritech.net). Until next month,
